Demystifying the INVALSI: the why, the what, and what can it do for us?

Ready for the INVALSI second round? Join us as we discuss what INVALSI is, what it isn't, and how we can prepare our students so they have the confidence to ace it! This seminar aims at providing teachers with the latest up-to-date information on how INVALSI is evolving and on how to best achieve results through thoughtful classroom practice. Teachers will leave this seminar with new ideas on how to activate and develop the skills their students need to succeed in their exams.
